✅ **Congratulations! No issues found.**

Avoid plugins
Your page does not appear to use plugins, which would prevent content from being usable on many platforms. Learn more about the importance of avoiding plugins.

Configure the viewport
Your page specifies a viewport matching the device's size, which allows it to render properly on all devices. Learn more about configuring viewports.

! Should Fix:

Avoid landing page redirects

▸ Show how to fix

Eliminate render-blocking JavaScript and CSS in above-the-fold content

Your page has 1 blocking script resources and 2 blocking CSS resources. This causes a delay in rendering your page.

None of the above-the-fold content on your page could be rendered without waiting for the following resources to load. Try to defer or asynchronously load blocking resources, or inline the critical portions of those resources directly in the HTML.
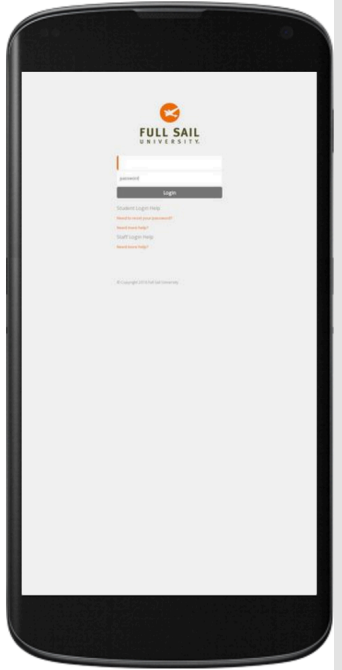

Remove render-blocking JavaScript:

https://code.jquery.com/jquery-1.10.1.min.js

Optimize CSS Delivery of the following:

https://fonts.googleapis.com/css?family=Open+Sans

https://fonts.googleapis.com/css?family=Arvo:700
